POLAR BEAR ECOLOGY TOUR

Churchill, Manitoba • November 11-14, 2017

EXPERIENCE AN EXTRAORDINARY EVENT! World travellers come to Churchill in the fall to witness polar bears waiting for the ice to form on Hudson Bay so that they can resume seal hunting and break many months of fasting. We will view the earth's largest land carnivore from the safety of a Tundra Buggy®. The tour is enriched by sightings of other wildlife, migrating and resident birds, historic Cape Merry and the Itsanitaq Museum.

HIGHLIGHTS OF THIS TRIP:

- A full day on our private Tundra Buggy®. You will be delighted with the opportunity to observe and learn about these magnificent creatures in their natural habitat.
- Accommodations at the gold standard LEED certified Churchill Northern Studies Centre. The study centre is located on the traditional polar bear migration route to the Bay. Staying at the centre provides us an opportunity to meet and learn from researchers.
- Opportunities to explore history, culture, geology, plant, animal life and photograph within the 60 mile roadway area.
- A relaxing adventure on our own private charter plane from Saskatoon to Churchill and return.
- Our own bus in Churchill for wildlife viewing.
- Lectures in Saskatoon and in Churchill.

COST: \$3,595 + GST. Deposit is 10% of fee (double/shared accommodation) to secure your spot.

COST INCLUDES: Accommodations and meals at the Churchill Northern Studies Centre, local travel in Churchill, and a full day on a Tundra Buggy® for close-up Polar Bear viewing.

Leave Saskatoon via chartered flight at 7:00 am on November 11, 2017. Return by 8:31 pm on November 14, 2017.

DATES: November 11–14, 2017.

Please call: 306-966-5539 to Register

TOUR GUIDE: Melanie Elliott

has led tours to Manitoba, Alberta, Florida, Hawaii, Iceland, Australia, South America and South Africa. She teaches workshops and leads field trips on ecology. Melanie's guiding style is relaxed and flexible, while she attends to her clients needs.
